

FEDERAL RETIREMENT THRIFT INVESTMENT BOARD  
1250 H Street, NW Washington, DC 20005

October 9, 2009

MEMORANDUM FOR THE EXECUTIVE DIRECTOR

FROM: JAMES B. PETRICK *[Signature]*  
CHIEF FINANCIAL OFFICER

SUBJECT: QUARTERLY FINANCIAL ASSESSMENT OF TSP'S PRIMARY  
VENDORS – OCTOBER 2009

The Board has requested that each quarter we review the TSP's primary vendors and report on their financial standing. This quarter, we have again reviewed Serco Group (formerly SI International), Barclays PLC, Switch and Data, R.R. Donnelley & Sons, MetLife, and The Active Network, Inc. We have added BlackRock, Inc. as part of the review given the pending acquisition of the Barclays BGI unit which is expected to close in the fourth quarter of 2009.

For each vendor we have analyzed the following:

1. Current Financial Condition:

Our financial analysis consists of a review of the vendor's key financial statistics from their current income statement, balance sheet, and cash flow statement for the most recent quarter available to determine their overall financial stability. For this report, we are using unaudited data for the six months ending June 30, 2008. We determine whether there is evidence of stable or growing income (i.e., the profitability of the company). We also review the current balance sheet to determine 1) the current ratio of assets to liabilities to ascertain the vendor's ability to meet short term liquidity needs and 2) the ratio of total debt to total assets to ascertain the prospects for longer term profitability. Then, we look for significant changes from prior to current periods to identify trends that may require further explanation. At the Board's request, for comparative purposes, we have included information from the first six months of 2009, year-end 2008, the first six months of 2008, and year-end 2007.

For banking and depository institutions such as Barclays PLC, the examination of assets and liabilities is a less relevant measure. In this industry, categorization of assets and capital is highly standardized so results can be weighted by risk factors. In the U.S., the Board of Governors of the Federal Reserve System (FRB) issues these risk-based capital guidelines. The guidelines are used to evaluate capital adequacy based on the perceived credit risk associated with balance sheet assets, as well as certain off-balance sheet exposures such as unfunded loan commitments,

letters of credit, and derivative and foreign exchange contracts. For MetLife, we heavily rely on the insurance rating agencies scores of overall financial strength and claims paying ability.

## 2. Dun & Bradstreet Credit Score:

We continue our practice of reviewing the Dun & Bradstreet credit scores. These scores predict the likelihood of a firm paying in a severely delinquent manner (90+ days past term) over the next twelve months. The score range is 1-5 with 1 being the lowest risk and 5 the highest risk of the firm paying in a severely delinquent manner. While this score has some descriptive value in terms of the firm's current relationship with its creditors and can disclose potential financial problems, it should only be considered one part of a firm's overall financial picture.

## 3. Significant Events:

This section includes a description of any significant items that could impact the company's financial situation, such as significant pending litigation, mergers and acquisitions, or major stock issuances or redemptions.

## 4. Risk Mitigation:

This section describes the risk to the TSP if the vendor were to become unable to meet the terms of the TSP's contract and what steps we would take to mitigate the risk to ongoing TSP operations.

## **Serco Services Inc. (formerly SI International)**

General Information: Serco Services Inc. is the prime contractor for operating both FRTIB data centers, operating and maintaining the TSP record keeping system, providing incoming mail, data entry and imaging support, and operating the Clintwood Call Center. Serco Services Inc. also administers system accounting, court ordered payments, death benefits, and payroll office liaison functions. Serco Services Inc. relies on subcontracting support as follows: Jacob and Sundstrum, Inc. for systems programming support; Switch & Data for our northern Virginia Data Center space; Sungard Workflow Solutions, Integrated Benefit Solutions, Inc. (IBS) for some TSP record keeping support, and Sungard EXP for incoming mail, data entry and imaging support.

On December 30, 2008, Serco Group plc completed the acquisition of SI International, which merged with Serco's existing North American business. SI International amended its Certificate of Incorporation, among other items, to change the name of the Company from "SI International, Inc." to "Serco Services Inc." Serco acquired 100% of the issued share capital of SI International, Inc. for consideration of £295.8 million in cash. In preparation for the merger with the Serco Group plc, SI International Inc. used its cash holdings to repay long term debt and to repurchase common stock.

Assessment: The integration of the merger is well advanced, management and business re-organization is complete, and the contract bid pipeline processes have been reviewed and integrated. Serco Services Inc. has an extensive portfolio of Federal government contracts and serves all branches of the U.S. military, numerous civilian agencies and the intelligence community. We find no indication at this time that Serco Services Inc. is unable to fulfill its contractual obligations to the TSP.

Current Financial Condition: For the six months ended June 30, 2008, in its SEC filing, Serco Group plc reported revenues of £1.9 billion, an increase of 31 percent from the £1.5 billion reported in the first six months of 2008. Serco Group plc reported 2008 year-end revenues of £3.1 billion compared to £2.8 billion reported year-end 2007, an increase of 11 percent. In the U.S., Serco Services Inc.'s revenue grew by 11.4 percent compared with the first half of 2008 to \$308.9 million.

- **Income Statement:** Through June 30, 2009, Serco plc reported Net Income of £61.4 billion, up 35 percent from the £45.9 billion reported in the first half of 2008. Profit for the period was £61.4 million, up 34 percent from £45.9 million reported in the first half of 2008.
- **Balance Sheet:** Through June 30, 2009, Total Assets of £2.4 billion were reported, an increase of 30 percent from the £1.8 billion reported at year-end 2008. Total Liabilities increased to £1.7 billion, a 31 percent increase from the £1.3 billion reported at year-end 2008.
- **Cash Flow:** Through June 30, 2009, cash and cash equivalents totaled £237.2 million, a 10 percent increase from £215.6 million at year-end 2008.

- **Current Ratio:** The Current Ratio (Current Assets/Current Liabilities) decreased to 1.2 from 1.3 reported at year-end 2008.
- **Leverage:** Through June 30, 2009, Total Liabilities as a percent of Total Assets remained flat from 0.73 reported at year-end 2008.

Dun & Bradstreet Credit Score Class: As of September 30, 2009, Serco Services Inc.'s credit score was 3 (moderate risk). This score was unchanged from the prior quarter.

Stock Performance: SI International ceased trading with the completion of its merger with Serco Group plc (SRP.L). On September 30, 2009, Serco Group plc traded at £505.00. The 52-week range has been between £317.00 and £517.00; where the high was on September 18, 2009, and the low was on October 18, 2008.

SAS 70 Report: There is no SAS 70 report available.

Significant Events:

- On September 1, 2009, Serco Group plc signed three contracts with the U.K. Department for Work and Pensions worth between 400 million and 500 million pounds (\$813 million) to be a prime contractor delivering a program for jobseekers in returning to and remaining in work.
- On September 1, 2009, Serco Services has been awarded a task order on the Seaport contract with the U.S. Navy's Fleet and Industrial Supply Center San Diego (FISCSD) Hazardous Material (HAZMAT) Operations to provide logistical support for acquisition, management, issuance and disposal of HAZMAT products and chemicals. The task order has a one year base period with four one-year option periods and is valued at approximately \$66 million, inclusive of the options.
- On August 12, 2009, Serco Services announced that it has been awarded an Automated Data Processing (ADP) Support Service Contract with the U.S. Army Research Laboratory (ARL). The prime contract has a one-year base period with four one-year options. The new contract has a potential value of \$8 million, if all option years are exercised.
- On May 1, 2009, Serco Services was named #28 in the Top 100 Government Contractors ranking by Washington Technology.

Risk Mitigation: Should Serco Services Inc. cease operations, we could issue letter contracts (an agreement to be negotiated at a later point) on an emergency basis to: a) Switch & Data to retain our Northern Virginia data center space; b) Jacob and Sundstrum to continue systems programming (and perhaps expand that support to data center operations), and; c) Sungard to continue incoming mail, data entry, and other operations as well as for expanded capabilities to maintain the TSP record keeping system, accounting, legal, and Agency interface operations.

If Serco Services Inc. were unable to operate the Virginia call center, The Active Network, Inc. call center in western Maryland, could serve as a temporary backup.

The Agency is continuing to develop the requirements for a new statement of work (SOW) in preparation for the re-competition of Serco Services Inc.'s record keeping services. The progress on this effort has been delayed by the need to relocate the Agency's primary data center while keeping the TSP modernization initiative on track. The Agency's decision to first release an RFP for acquisition support services has also contributed to the delay. We hope to release the acquisition support services RFP by December 31, 2009, and the RFP for recordkeeping services by the end of FY 2010, with a contract award in mid FY 2011. A full and open competition is planned, and risk mitigation will be a principal component of the procurement strategy.

## **Barclays PLC**

General Information: Barclays PLC is ranked as the 25th largest company in the world according to Forbes Global 2000's 2008 list and is the fourth largest financial services provider in the world according to Tier 1 capital (\$32.5 billion). In the U.K., it is the second largest bank based on asset size. On December 6, 2006, the Agency announced that Barclays Global Investors (BGI), N.A., Barclays' asset management division, was selected to manage the TSP F, C, S, and I funds. In addition to investment management, BGI is responsible for providing custody through its subcontractor (State Street Bank and Trust Company) and securities lending services to the TSP.

On June 16, 2009, Barclays accepted BlackRock Inc.'s \$13.5 billion offer to buy Barclays Global Investors. Barclays said it would pay a breakup fee of \$175 million to private-equity firm CVC Capital Partners, which had reached an earlier deal to buy iShares, BGI's exchange-traded fund unit. The transaction is expected to close in the fourth quarter 2009 following approval by Barclays' shareholders, the receipt of client consents and regulatory approvals, and satisfaction of customary closing conditions.

Assessment: Barclays PLC is a financially sound and profitable financial institution. Barclays reports that their year-end capital ratios exceed the regulatory minimum required by the U.K. Financial Services Authority (FSA) by an amount equivalent to £17 billion. On March 27, 2009, the Financial Services Authority tested Barclays' loans against various economic scenarios through 2011 and found that its capital ratio, a measure of financial strength, remained above the regulatory minimum of 4 percent. At present, Barclays states it will not seek subscription for further capital - either from the private sector or from the U.K. Government.

Current Financial Condition: Barclays follows the International Accounting Standards (IAS) interim reporting timetable and has published its half-year interim results for the period ended June 30, 2009.

As of June 30, 2009, within Barclays PLC, Barclays Global Investors (BGI), its fund division, reported a 4 percent decline in pretax profit to £265 million from £276 million in the first six months of 2008. Total assets under management decreased 2% (£21 billion) to £1,019 billion (31st December 2008: £1,040 billion) comprising £127 billion of negative exchange rate movements, partially offset by £72 billion of net new assets and £34 billion of favorable market movements.

- **Income Statement:** Net profit for the period was £2.3 billion, up 10 percent from £2.1 billion reported in the first half of 2008.
- **Balance Sheet:** As of June 30, 2009, Total Assets for Barclays PLC were £1,545.3 billion, a decrease of 25 percent from the £2,053.0 billion reported at year-end 2008. Total Liabilities reported were £1,496.7 billion, down 25 percent from the £2,005.6 billion reported at year-end 2008.

- **Cash Flow:** As of June 30, 2009, cash and cash equivalents totaled £58,490 million, a decrease of 9 percent from the £64,509 million reported at year-end 2008.
- **Capitalization:** Based on the FRB's definition, as of June 30, 2009, Barclays' reported "Tier 1" ratio of 10.5 percent significantly exceeds the regulatory standard of at least 4 percent required to be considered well-capitalized.

**Dun & Bradstreet Credit Score Class:** As of September 30, 2009, the credit score was 4 (moderately high risk) up from 3 (moderate risk) reported on June 4, 2009.

**Stock Performance:** After reaching a 52-week high of \$27.32 on October 1, 2008, the closing price of Barclays PLC American Depositary Receipts (ADR's) on September 30, 2009, was \$23.64. The 52-week low of \$2.75 occurred on January 23, 2009.

**SAS 70 Report:** The independent service auditor's report dated January 30, 2009 was provided by PricewaterhouseCoopers LLP. Dates of coverage are January 1, 2008 to December 31, 2008. No issues related to the TSP were determined.

#### **Significant Events:**

- On September 29, 2009, Barclays Bank PLC has agreed to acquire the Portuguese credit card business of Citibank International plc. Under the terms of the transaction, Barclays will acquire approximately 400,000 credit card accounts; gross assets of approximately 644 million Euros which relate to receivables; as well as the Business' employees. Barclays intends to integrate the Business into its Global Retail and Commercial Banking - Western Europe division. Completion is expected to occur before the end of 2009.
- On September 16, 2009, Barclays PLC announced the restructuring of \$12.3 billion of credit market assets by a sale of the Assets to Protium Finance LP. Protium is a newly established fund whose objective is to purchase credit market assets from third parties and manage those assets over time to benefit from their long term cash flows. The activities of Protium will initially be supported by \$450 million of new funding provided by the partners of Protium and by a loan to Protium of \$12.6 billion by Barclays. The loan will be used primarily to fund the purchase of the Assets from Barclays.

**Risk Mitigation:** The TSP assets in the four investment funds managed by BGI and the level of risk should BGI cease operations will be assumed by Barclays until there is a transfer of assets to BlackRock Inc. These assets are held in commingled trust funds, which cannot be accessed by Barclays' creditors. In the event of Barclay's bankruptcy, the actual securities could be transferred by the Agency to another investment manager. There is a risk during the transition that the TSP may be unable to allocate participants' investments in a timely manner. Additionally, there may be transaction costs associated with transferring the assets to another investment manager, but this risk is mitigated by the terms of the current contract with Barclays, which provides for the transfer in kind of the TSP assets. There is no risk to the TSP assets in sale of BGI, since BlackRock, Inc. is subject to the same contract provisions as Barclays.

## Switch & Data

General Information: Switch & Data provides data center hosting services for the TSP at two sites. The TSP's primary data center operates out of Switch & Data's northern Virginia facility under contract with Serco Services Inc. (formerly SI International). The Agency has a direct contract with Switch & Data for the western Pennsylvania facility that houses our backup data center.

Assessment: On February 8, 2007, Switch & Data completed an initial public offering (IPO) resulting in gross proceeds of \$153 million. Net proceeds, after underwriting discounts and commissions and other costs related to the offering, were \$139.3 million. Much of this amount was used to reduce long-term debt, while the rest was used to improve the Company's cash reserve.

As of March 31, 2009, Switch & Data had borrowed the entire \$120 million in principal outstanding under the Term Loan permitted under the terms of its 2008 Credit Facility. All of the Company's assets are pledged as collateral for the 2008 Credit Facility.

As of June 30, 2009, Switch & Data has \$120.0 million in principal outstanding under the Term Loan, \$22.5 million in principal outstanding under the Delayed Draw Term Loan, and a \$1.4 million letter of credit outstanding under the Revolver. All of the Company's assets are pledged as collateral for the 2008 Credit Facility. Repayments of principal under the Term Loan and the Delayed Draw Term Loan are due in scheduled quarterly installments, beginning March 31, 2010, with the final payment due and payable on March 27, 2014.

Current Financial Condition: In its SEC filing for the six months ended June 30, 2009, Switch & Data reported a net loss of \$106 thousand.

- **Income Statement:** For the six months ended June 30, 2009, Switch & Data reported Revenues of \$96.5 million, an 18 percent increase from the \$81.7 million reported for the same period in 2008. Total costs and operating expenses increased to \$88.7 million for the first half of 2009, a 20 percent increase over the \$74.0 million reported in the first half of 2008. Operating Income in the first half of 2009 was \$7.8 million compared to a \$7.7 million loss in the first half of 2008.
- **Balance Sheet:** Through June 30, 2009, Switch & Data reported total assets of \$390.3 million, a 9 percent increase from \$358.9 million at year-end 2008. Total liabilities of \$265.5 million were reported, a 12 percent increase from \$237.9 million reported at year-end 2008.
- **Cash Flow:** Through June 30, 2009, cash and cash equivalents totaled \$24.7 million, an increase from \$14.7 million at year-end 2008, due primarily to cash raised through financing activities.
- **Current Ratio:** The Current Ratio (Current Assets/Current Liabilities) increased to 0.75 as of June 30, 2009, from 0.62 at year-end 2008.

- **Leverage:** Through June 30, 2009, total liabilities as a percent of total assets increased to 68 percent from 66 percent reported at year-end 2008.

**Stock Performance:** The price of Switch & Data shares as of September 30, 2009, was \$13.61 (its initial public offering price was \$17.00 per share) and down from its 52-week high of \$14.98, on September 16, 2009. The stock's 52-week low was \$3.92 on November 21, 2008.

**SAS 70 Report:** The most recent SAS 70 report is the report dated September 8, 2006 by SAS 70 Solutions. No issues related to the TSP were determined. In the meantime, SAS 70 certification is not required to be renewed or updated unless there is a material change in the company's operating procedures. Because Switch & Data has not made any material changes, the letter from 2006 is still in effect and Switch & Data is still certified.

**Dun & Bradstreet Credit Score Class:** As of September 30, 2009, the credit score was 3 (moderate risk), unchanged from the prior quarter. A credit score of 2 (slight risk) was reported on April 8, 2009.

**Lawsuit Issues:**

- On May 31, 2006, Switch & Data Facilities Company, LLC, Switch & Data's subsidiary, was served with a lawsuit alleging a failure to execute a lease in October 2000 for a building in Milwaukee, Wisconsin. Plaintiffs claimed the rent and associated lease charges due for the entire ten year term of the lease was \$3.7 million. Plaintiffs also claimed a loss of \$0.8 million on the sale of the building and \$0.2 million in attorney fees. Switch & Data's management faced a range of likely outcomes and had accrued \$0.2 million, an amount at the low end of the range in accordance with SFAS No. 5, Accounting for Contingencies. On May 21, 2009, in exchange for a full settlement agreement and the execution of a mutual full and complete release of all claims which were raised or could have been raised in the referenced matter, Switch & Data agreed to pay \$0.9 million to the plaintiffs. The settlement amount was paid in May 2009 and the case was dismissed with prejudice.

**Significant Events:**

- On September 8, 2009, Switch & Data announced that it had obtained \$100 million of debt financing from a syndicate of banks arranged by RBC Capital Markets. The financing will accelerate Switch & Data's capacity expansion program including its previously announced site in Atlanta, GA and fund expansion in other high-growth markets.
- During the six months ended June 30, 2009, the Company granted 582 common stock options with a weighted average exercise price of \$5.84 per share to employees and non-employee directors. Of the grants, 547 of the common stock options vest at a rate of 25% on the first anniversary of the grant date and 25% annually until the common stock options are fully vested. Non-employee directors received a total of 35 common stock options that vested immediately. These vesting periods were established by the

Compensation Committee of the Board of Directors at the date of grant. Common stock options expire ten years after the date of grant or when an individual ceases to be an employee of the Company. Compensation expense for these common stock options will be recognized over the vesting period. The aggregate intrinsic value of options outstanding as of June 30, 2009 was \$8.2 million. The aggregate intrinsic value of options exercisable as of June 30, 2009 was \$5.0 million. The aggregate intrinsic value of restricted stock outstanding as of June 30, 2009 was \$2.4 million.

Risk Mitigation: There is some operational risk to the TSP if Switch & Data fails because of our dependence on it for both our primary data center and the backup facility in Pennsylvania. If Switch & Data were to fail, we could take one of two actions. We could split the primary and backup data centers between two contractors. To do so, we would need to do a competitive procurement and state the requirement for independent contractors for the two sites in an RFP. Competition could be limited to collocation providers on the GSA Schedule, which would provide for a quicker contract award. An alternative would be a similar approach as with the Clintwood call center, and create data centers as Government Owned Contractor Operated (GOCO) facilities. Although it requires more effort, this would allow us to continue operations by either issuing a letter contract to another contractor to operate the facility or to operate it ourselves (with temporary staff).

We continue to monitor the Company's long-term viability, which includes periodic site visits and dialogue with onsite personnel to ascertain the condition and use of facilities, and timeliness of payrolls. At the same time we are researching other potential hosting companies/sites.

Compensation expense recognized related to stock options for the three and six months ended June 30, 2009 was \$0.7 million and \$1.2 million, respectively. Compensation expense recognized related to restricted stock units for the three and six months ended June 30, 2009 was \$6.7 million and \$12.6 million, respectively.

Risk Mitigation: The current TSP contract was effective on March 20, 2006. If there were a disaster at the facilities currently producing our notices or statements, R.R. Donnelley & Sons would move that work from the affected facility to one or more of its other business sites. If R.R. Donnelley & Sons were to cease operations, we would have to pursue a new contract as soon as possible with other printing vendors but we consider this possibility to be very unlikely.
